

Kartikey

+91 8168948084 | kartikeygupta261204@gmail.com | [Portfolio](#) | [LinkedIn](#) | [GitHub](#)

EDUCATION

Bharati Vidyapeeth's College of Engineering, Delhi

Bachelor of Technology in Computer Science | 2023 – 2027

CGPA: 8.74/10

Navyug Ser. Secondary School, Haryana

Senior Secondary | 2020 – 2022

TECHNICAL SKILLS

Languages

JavaScript, Java, Python, C/C++, HTML, CSS

Frameworks & Libraries

Node.js, Express.js, React.js, Tailwind CSS, LangChain, LangGraph, Scikit-learn

Databases & Tools

MongoDB, MySQL, Git/GitHub, Maven, JWT, ImageKit

PROJECTS

Task Management System | *Node.js, Express.js, MongoDB, JWT*

GitHub: [github.com/system-management](https://github.com/kartikeygupta261204/system-management)

- Developed a **scalable backend task management** platform supporting multi-level organisational workflows.
- Implemented **MVC architecture** to improve maintainability and modularity.
- Built **JWT-based authentication** and **role-based authorisation** for Admin, Head, and Member access levels.
- Designed **10+ RESTful APIs** for task handling, user management, and approval workflows.

Travel Story | *React.js, Node.js, MongoDB, Tailwind CSS*

GitHub: [github.com/travel-story](https://github.com/kartikeygupta261204/travel-story)

Link: [Live Demo](#)

- Built a **full-stack** travel journaling platform with image uploads, location tracking, and social features.
- Developed secure **JWT authentication** with protected user and group routes.
- Integrated **ImageKit CDN** for optimised cloud image storage and retrieval.
- Deployed frontend on **Vercel** and backend on **Render** with environment-based configuration management.

RPG Game | *Maven, JAVA, REST API, Gen AI*

GitHub: [github.com/rpg-game](https://github.com/kartikeygupta261204/rpg-game)

- Developed an **AI-powered** RPG dialogue engine using Google Gemini API for dynamic NPC interactions.
- Designed **prompt-engineered** personality systems for context-aware conversations.
- Implemented conversation memory for coherent multi-turn NPC interactions.
- Structured modular Java services using Maven for **scalable AI integration**.

Kitchen Preparation Time Prediction System | *Python, Scikit-learn, Random Forest, Pandas, Matplotlib*

GitHub: [github.com/true_kpt](https://github.com/kartikeygupta261204/true_kpt)

- Built a machine learning pipeline to predict kitchen preparation time using operational restaurant data.
- Developed a two-stage **Random Forest** architecture to improve prediction reliability.
- Engineered behavioural and congestion-related restaurant intelligence features.
- **Reduced MAE from 3.50 minutes to 0.31 minutes** and improved P90 error from 5.63 to 0.84 minutes.

ACHIEVEMENTS

Co-authored a research paper:

“A Systematisation of Adversarial Multi-Agent Learning in Cybersecurity for Web Security”

Presented at the International Conference on Advancements & Key Challenges in Green Energy and Computing (AKGEC 2026).
